

25 of October

Dear Mamma,

Hope you are all keeping. Thank Kitty for her letter. I'm glad she is alright once again. I last wrote to Dennis so I expect he got my letter.

I am keeping very well myself. I have now got used more or less to living in Buenos Aires. It really is a big city but once one gets to know people & make friends it is not so bad a place to live in. There is now another Argentinian brother with me so it is much better now.

Last night I went to visit Sr Terence the sister of John Bea's wife but she was not in. They were out visiting. The weather here is getting warm now & it is not so pleasant working in the sun. Luckily enough as I work on the stair-case I don't get too much of the sun. How are things in Ireland? I see there was some trouble when Ireland didn't withdraw its ambassador from Spain. Today I heard Franco is almost dead.

How are the price of things in Ireland? Here everything is going up in price and life has got very expensive, the only thing been cheap is the meat.

Well I'll finish this letter. I have really
very little news. I hope you will be able to get the
certificate fixed up as I asked in the letter to Dennis.
How are the Lees keeping?

Give best wishes to Daddy & all the
kids - Good Bless. & Love

Your fond son
Peter

The photo is taken near Buenos Aires with some friends
when we had a picnic. They are Chileans
