

up again. Tell mammy I got her letter and
the p's. I am going to bring it up to Fr. O'Reilly
now when I am going up to post this letter. The
candles too he said will come in useful. I
got a second hand carsock too and I wear on
all days except on Sundays or feast days as
I would ruin my good one wearing it every day.
We all feel great here today after the sleepout
we had to in the morning on account of the
change in time. Last week too on Thursday
we were out picking the potatoes for the day.
They were good and scarcely any of them were
black but I think in most places around there
is a good share of them black. The boy Jerry Sangan
who got his appendix out & is back with us again
and so is Frank Russell whose father died. We had
Exposition of the Blessed Sacrament all day today.
